

Developing a Multidisciplinary Diploma on Art Therapy  
in Health Education

Project #: 610134-EPP-1-2019-1-JO-EPPKA2-CBHE-JP

Co-funded by the  
Erasmus+ Programme  
of the European Union

The main objective of the project is to represent and encourage the development of the Arts Therapies and Arts Therapies education in partner countries, in particular, to design professional educational program (e-learning package) that will enable all staff and students working with patients with long term conditions to offer their patients arts-based therapeutic activities. The consortium will collaborate to create materials for the eLearning package of vocational training for staff and students in how to use the arts as a therapeutic tool
